BOSS NUMBER TWO.

Coney Island has disposed of its boss and stands a chance of being a free and independent community for some little lime to come. Its neighbor, New Utrecht, ncouraged by Coney Island's example, preparing to throw off its chains and make an effort to win its own freedom. Forty years ago, a male Malaprop, A

B. Dickinson, commonly called "Bray," Steuben, was a factor in polities in the State. In 1854 he in the Senate, and was not noted for scrupulousness in political and egislative matters. One day he was using his best efforts to secure the appointment of a man to a public office, whose integrity had been called in quesion, and whose character he was de fending. "I know him," said Bray. "He has lived contagious to me for five ears, and he ought to be honest."

Cornellus Furgueson, of New Strecht, has lived "contagious" to Boss dcKane, of Concy Island, for so long time that it is not surprising he has grown to consider the town as his entrapy, and to believe that Cornelius urgueson is all there is of New Utrecht, Fort Hamilton, Bay Ridge and Bensonurst. In fact, "Corny" is as much of a Czar as John Y. was before he discovred that Supreme Court processes "go" n Coney Island.

Boss Furgueson is more of a "Pooh-Bah" than was the retired Gravesender imself. He is State Shore Inspector. Supervisor, Chief of Police, President of the Boards of Health and Improvement. Treasurer of the Inebriates' Home and Chairman of a number of local committees. If he should wear a badge of office for every public position he holds ne would be compelled to wear two vents to display them on.

Furgueson's methods are entirely bossish. In street openings he manages to open the pocketbooks of the taxpayers and to open up pickings for his henchmen as well. In giving the city light he makes the bank accounts of the citizens light in proportion. Of course he has plenty of "heelers," and runs elections to suit himself.

The town elections are to be held in New Utrecht the first Tuesday in April, and as the people are getting up a citizens' movement, and as E. M. Shepard is at the Democratic end of it. it is tolerably certain that Boss Furguesor will follow his neighboring boss, at least into retirement.

THE PASSING OF BROCKWAY.

Senator Robertson introduced a bill yesterday to put the Elmira Reformatory under a superintendent appointed by the Governor and Senate and to abolish the Board of Managers.

Ex-Speaker Sulzer had already announced his intention to introduce a similar bill as soon as legal and brutal management of the templates abolishing the office of Superaction in the Senate. The Congress is intendent and the Board of Managers putting the Reformatory under the same control as the State prisons and providto wake up the representatives of the ing for the appointment of a warden as all other wardens are appointed.

It is well known that influences are at work to save the mangers and superin tendent, and to seek to satisfy public opinion by the strict prohibition of corporal punishment at the Reformatory The managers are prominent politician of Elmira, and they are bound by selfinterest to protect Brockway. But there system should be changed. The transfer prisoners to State prisons should be stopped or the transferred prisoners should be allowed the time they have served at the Reformatory. The "parole" buse should be abolished. prisoner has served a stated term at the Reformatory he should be free and not at the mercy of the institution to seize upon him again for no new offense, but

The pretense was made by the Streetpossible to obtain a number of these men on an emergency without going to the "The Evening World" Commissioner Andrews without the intervention of the padrones; that he promised to employ them, but ignored them

and broke his word. The claim that the intervention of the padrone is necessary is, therefore, a false pretense. There is every reason to believe that the contracts with the padrones cover a larger and more extended job than has yet been developed.

MULTIPLYING THE LOST POCKET.

Woman wants more pockets in her Congress of Women for Improved Dress yesterday. "In this one respect," the pocket-promoter insisted, "we are not the equals of men, who have dozens of pockets."

Well, if she wants them, she wants hem, and she will have them-that's all; but what in the name of peptonized chewing gum and heliacal hairpins she wants dozens of pockets for, we can't inderstand. Doesn't she waste time enough now with the solitary pocket she has? Isn't it in a notoriously chronic state of lostness all the time? Why, there hasn't been one-tenth the hunting and searching and skirmishing for the famous missing Pegleg mine that there has been for this lone pocket, forever osing itself in woman's dress.

Heaven help the poor street-car conductor if woman increases the number of her pockets! Won't he have a time of it prancing up and down the car waiting for his fare? And mercy on those of us that have to stand in line behind her at a ticket window on the "L" road! Besides, consider how many more pockets we men will have to put into our clothes to carry the money she will want to fill hers.

If Shore Inspector Furgueson, of New Utrecht, will devote some attention to certain close-lying shores of time, he will discover the footprints which "The Evening World" cartoonist graphically depicts to-day. Following them with his eyes, rather than with his feet, he will observe that they lead to a distinctly unattractive terminal station. A word is sometimes sufficient to the wise. Frequently it may be the case that a picture is better. There is no excuse for the New Utrecht Pooh-Bah if he does not succeed in reaching the conclusion to which the artist has so clearly pointe

as a good, refined and lovable little woman.

Her husband, Clarence O'Brien, is working in a box factory on Eleventh avenue, near Thirty-seventh street. He was formerly a Post-Office clerk. His weges are meastre, and at the time of his wife's death he had not enough saved to afford her body a decent burist. During her last lilness the poor woman had not even a gown to wear, and, had it not been for the assistance afforded by her friends Mrs. L. AGAINST THEIR FATHER.

Neisner's Nieces Testified for Him Regarding Their Chains.

Max Kleinman has been denied judgment in the Fourth District Court against Max Nelsner for \$125, the value of two gold chains. Neisner retained Lawyer Alfred B. Jaworower, of the Pulitzer Building, and told him that some six or seven years ago his aunt died and left one of the gold chains with his sister, who is Kleinman's wife, and told her to keep it and give it to the children when they grew up.

Soon after the death of her aunt, Mrs. Kleinman died. She took the chain

Kleinman died. She took the chain which she received from her aunt, together with one of her own chains, and gave them to her husband, instructing him to give them to the two daughters when they grew up. Five years ago Kleinman went to his brother-in-law, Neisner, the defendant, gave him the two chains and asked him to keep them for his (Kleinman's) children.

In the mean time Neisner loaned Kleinman several hundred dollars, and when Neisner asked for the money Kleinman got angry and brought the action. Lawyer Jaworower told this story to Civil Justice Roesch yeaterday and produced the daughters in court, who testified that since their mother's death their father had married again; that they were living by themselves and didn't want to have anything to do with their father, and that their uncle was very good to them, and gave them the chains in November hast.

Justice Roesch gave Judgment for the defendant.

Fruit Salad.

At a fashionable luncheon recently he first course consisted of a fruit salad, which was served in ange skins, from which the con-tents had been removed, cut in the hape of baskets, with arched handles five oysters. Skim them out and chop over the top, and filled with chopped pineapple, thinly sliced bananas, white from the cysters add an equal amount grapes, cut in two and seeded, the pulp and juice of the orange and Jamaica two tablespoonfuls of flour rubbed into

The advent of voluminous cravats is a matter which seems to be of very secondary importance, and yet it may be telling object in the general aspect of a tollet. For so long a time a straight band about the throat has been the only acceptable style that the new cravati take us by surprise, all the more so that they are excessively wide, and when tied n a big bow will cover the greater part of the bust, the loops reaching to the curve of the shoulders and the ends falling nearly to the waist. Some of these cravats, which we owe to the favor in which vests and Louis XVI. jackets are held, are made of a breadth of mouss laine de soie, bordered with three or fou bands of satin of different colors. Supposing the muslin to be of pale green bands may be sky-blue, tan, moss and cerise bands of copper color, old gold, pink and crimson being woven around cream or saffron centres. Tinted as well as white mousselaine de sole ar also made up into cravats, with deep frills of lace at the ends, India muslin being treated in the same way. The greater novelty, however, is the watered silk cravat, more often black than colored, flounced with corn or cream lace. Ten-inch-wide ribbon, without an edge and sometimes piece slik, is used for the purpose. Frequently the lace used for the flounce is rather coarse net, with applications of guipure on the edge.

For Fancy Work.

An embroidery frame for the finest work is made of a small hoop over which the work is stretched and then secured by a little strap and buckle The work is held taut and can be moved as required, while the whole thing is light and little enough to hold easily upon the lap.

Chocolate Tartlets.

Make some small pastry cases, and fill with the following pastry cream: Mix the yolks of three eggs with one spoonful of sifted flour, then add gradually and leaving the new tender skin bethree-quarters of a pint of boiling milk and a little sait. Stir all together over the fire until it begins to thicken, and sticks to the spoon. Heat and skim well two ounces of fresh butter, stirring till it ceases to hiss, then leave it to color a little. Stir it in to the custard with two sifted sugar, and two ounces of crushed macaroons. This may be used either hot

or cold. Soft-Finished Laundry Work. Starch is out of fashion. Not a grain is used in women's and children's work Everything in this section of the modern laundry is done up with a soft finish It is a fact, perhaps not generally known, that muslin is as vulgar as fustian. There is not a scrap of that comection and fron trade, as they are a necessary mon cotton stuff in the layette of a wellborn baby; every white thing is made of English or French nainsook; even bands of the fiannel petticoat are mad of nainsook. The gentlewoman's body garments are finer or coarser, according to her means, but there is not a shree of muslin. Every article is handmad

and laundered as soft as a pocket handkerchief. When Smiles Are Impossible. The utter absence of a sense of humo

from the average feminine composition is never more clearly visible than in a busy thoroughfare on a wet and windy day. A woman may be a philosopher she may have original ideas and brill rarely rises superior to a muddy boot or a draggled petticoat. The woman is an exception indeed who manages to preserve a smiling face in the teeth of an east wind which plays shuttlecock with her umbrella and a dreary sleet which bespatters her clothes and freezes her fingers. Young or old, fair or plain-scarcely one of them who does not ominously as she hurries along. forgetful of other people's feelings and get married. How to Make Cold Cream.

The basis of cold cream is always, mut You can get this at the butcher's, and if you tell him what it is for he will select some very fine tallow. Cut the tallow into bits and out it into a saucepan without any water. Set the saucepan into a jar of oiling water, and let all remain until the fat is thoroughly "tried" out of the tallow. Strain through a fine sleve, and, while it is still warm, stir in a teaspoonful of the essence of camphor to every cup of tallow. Next. a tablespoonful of your favorite perfume, and stir until all is a sweet-smelling liquid. Before it has had time to cool pour in little toilet jar and set upon the ice over night. It will keep indefinitely, nd will be found one of the best remedles in the world for skin that gets rough and "winter-sore."

The New Glove.

The new glove has a touch of scarlet about it. Whether it shades on tan, pearl gray or delicate green, it is bound with a narrow line of bright scarlet and is fastened by four big scarlet bone buttons. It is really the most exclusive glove in the market and sold at a price equally as "exclusive." These gloves are for street wear and the theatre and are fashioned with glace kid. Long suede cloves in all the delicate shades, with the acks finely embroidered in white silk or in the same color as the glove itself, are still the vogue for evening wear.

Add a teaspoonful of celery salt, a tablespoonful of chopped parsley, a bit of cayenne and a palatable seasoning of white pepper and salt and return the oysters. When cold form into oval or round croquettes, dip in beaten egg, then into bread crumbs and fry in smoking hot fat composed of one part butter to

A Useful Brush.

two of lard.

Not only is a whisk broom a nee in every household, but a stiff brush fills a no less important place. Every woman knows how difficult it is to renove the dirt that collects on the bottom of her frock after a walk in our vinter weather and our city streets. This will not yield to any broom, but it may be successfully attacked with brush and will quite disappear.

Care of the Skin.

There are so many directions and counter directions that it is hard to know whether one is acquiring a lovely pink and white exterior or sowing a crop of pimples and shallowness by one's efforts towards beauty. One authority declares hot water to be the ruin of an already fine complexion, another proclaims it the salvation of a bad one, and cold water is equally lauded and condemned, while yet another recommends a combination of the two, that is a Russian bath for the face, first using as hot water as can be after which a brisk rubbing with a towel is in order. This treatment certainly imparts a charmingly rosy glow for the time. The skin may be gradually and imperceptibly renewed by wearing quilted cotton wadding mask at night with holes for the eyes and nostrils. The mask should be wet in lukewarm water or milk, its efficacy depending upon its warmth and moisture, which acts as a mild blister, removing the old cuticle

Not Good Form.

It cannot be too strongly emphasized that "pink dinners," "yellow dinners," "violet luncheons" and the like are not "good style," although they are continounces of grated chocolate, one ounce ually recommended to the public by writers on decoration. Yellow satin ribbon and yellow tissue paper flowers can never take the place with people "who know" of the spotless napery, brilliantly colished sliver and immaculate crystal of a well-kept table.
